About Me

As a final-year undergraduate student and SVL at MDX, I had the chance to enhance my skills in planning, communication, responsibility, and teamwork. I was able to represent my cohort in meetings with the academic staff and collect feedback as a SVL.

In addition, as a senior SLA, I honed my facilitation and leadership abilities by working with a large number of students and undertaking projects.

I am running for Academic Experience Officer to be the student voice to assist and address your concerns & improve your experiences at MDX.
